

Silicon Quest International (USA) and Charntec (UK) have partnered together to supply United Kingdom and Republic of Ireland companies with silicon wafers and wafer processing services.

Our products include:

- Silicon wafers in all diameters, 2" – 300mm.
- Prime and test grade wafers, plus mechanical, particle, solar, reclaim, epi & coin roll wafers.
- Silicon-on-insulator wafers.
- Substrates include Silicon, Glass, Gallium Arsenide, Sapphire, Quartz, and Germanium.

Our services include:

- Thermal oxide deposition from 500-150,000 Angstroms.
- Backgrinding and wafer thinning.
- Polishing.
- Reclaim.
